BRANDS WE'VE MADE FOR

WHAT WE MAKE

MACHINE-STITCHED

Durable training and youth balls in PVC or TPU.

HYBRID

Soft touch with very low water absorption, for club training and matches.

HAND-STITCHED

Match and professional balls, stitched by hand in Sialkot.

GOALKEEPER GLOVES

Junior to pro: negative, roll-finger, flat and hybrid cuts with German latex palms.

Also futsal balls, handballs and volleyballs in all three constructions. Every product made to your design, colours and logo.

GLOVE PALMS

German latex: Contact, Giga, Quartz, Aqua, All-Weather

BACKHANDS

Neoprene, Breathprene, Airprene, mesh, knit

FINISHES

Silicone printing, embossing, 3D detailing, HF welding

Plus one ERP system tracking every order, and our own design and development team.

QUALITY & TESTING

- 7-stage QC: raw material, lamination, printing, stitch prep, stitching, final test, packaging.
- Material tests: tensile and tear strength, abrasion, UV ageing, hardness, thickness and weight.
- Ball tests: rebound, water absorption, and a 2,000-kick shooting test on random balls.
- Every ball inflated for 24 hours, then checked for leaks, weight, circumference and roundness.

TENSILE TESTING

ABRASION

WATER ABSORPTION

WHY OUR PRICES COMPETE

DIRECT SOURCING

Straight from the makers, no middlemen.

SIALKOT

The football-making hub: deep skills, fair cost.

ONE ROOF

Balls and gloves in one factory, no outsourcing.

SCALE

High daily volumes keep unit costs down.
